### DETAILED ACTION

1. This application has been examined. The response and statement of common ownership, filed 4/06 has been entered.

2. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

3. Claims 41-45 and 63-66 are rejected under 35 U.S.C. 101 because they are directed to non-statutory subject matter.

4. Regarding claims 41-45, these are directed to software code which is not statutory subject matter.

5. Regarding claims 63-66, these are directed to media which per the specification may be signal claims. Such media are not statutory subject matter.

6. Claims 2-40, 48-62, 67-78 and 80-87 are allowable over the prior art of record. These claims bring out the single navigable window to which different functionalities are seamlessly navigated from the same application program (and not merely imported over the internet to a browser window), and the features combined are

not set forth in the prior art of record given that the Koppolu reference has been removed from consideration.

7. Applicant's arguments with respect to the claims have been considered but are moot in view of the new ground(s) of rejection. But note that the 103 rejection based on the Koppolu reference has been removed, due to the statement of common ownership.
